is defined in SD?**

Chronic Disease or Chronic Health in South Dakota: What Does the Data Tell us?

DOES HEALTH CARE MAKE A DIFFERENCE?

ACCESS, QUALITY and SATISFACTION

In order to say that citizens of the state of South Dakota have access to health care, the U.S. Government and *Healthy People 2020* identify that they must have ease in:

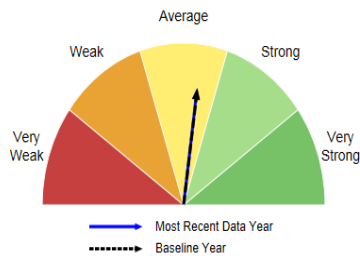

1. gaining entry to the health care system.
2. accessing quality health care services at a convenient location.
3. building a relationship with a trusted provider who communicates well.

South Dakota
